FLINTLASTIC[®] SA

Self-Adhering SBS Modified Bitumen Roof System

CertainTeed
SAINT-GOBAIN

Goes down fast. Stays on strong. Flintlastic® SA performs in all the right ways.

What's most important to you? Speed of installation? Durability? Appearance?

Flintlastic SA self-adhering SBS modified bitumen low slope roofing system is a premium performer in all of these areas.

What is the SA system?

Flintlastic SA is a self-adhering SBS modified bitumen system. With high-quality materials, bottom to top, components of the system include:

- Flintlastic SA NailBase (mechanically attached)
- Flintlastic SA PlyBase (self-adhering)
- Flintlastic SA MidPly (self-adhering)
- Flintlastic SA Cap (self-adhering)
- Flintlastic SA Cap FR (fire-rated, self-adhering)
- FlintPrime SA (quick-dry primer)

What are the advantages?

No torches, no hot asphalt, no fumes and no mess – all of which means application is cleaner, safer and much faster. Plus, equipment needs are minimal, which reduces capital and insurance costs. These advantages enhance CertainTeed's time-tested SBS modified bitumen membranes and are offered with warranties up to 25 years.

Where can I use it?

These products are flexible and can be used on commercial and residential roofs in three-ply or two-ply applications, depending on the roof's requirements. Large jobs or small, use Flintlastic SA anywhere you want the benefits of self-adhering technology with the proven protection of a modified bitumen roof system.

What about colors?

Now you can color coordinate a low slope roof to an adjacent shingle roof. Flintlastic SA is available in colors to complement the most popular CertainTeed shingles.

*Does not contain red granules.
